Annual Report

Govt. Victoria College, Palakkad

2017-2018

Scholar Support Programme (SSP)

Scholar Support Programme (SSP) provided an opportunity for imparting personalized additional support to needy students through tutorials. Internal Quality Assurance Cell after consulting with the teaching departments identified fifteen subjects for SSP tutorials. Students who are poor in their studies in the selected subjects were identified and from them fifty students were selected each from first year, second year and third year UG courses for SSP.

Fifteen faculty members were selected for the SSP tutorials and each one of them were given a team of ten students. A coordinator is also selected for the programme. The details are given below. They conducted tutorial sessions to their wards. The small group size of students helped the teachers to give individual attention and care to each student.

In the SSP tutorials the difficult topics in the identified subjects were explained to the students and the level of understanding is continuously assessed *via* conducting viva voce as well as series of test papers. The SSP tutorials helped the students to gain confidence in the subject and prepare for the university examinations.
